

REVENUE MEMORANDUM ORDER No. 44-98 issued June 1, 1998 prescribes the policies and procedures relative to the security requirements of the BIR in the technical computing environment. The Order provides the guidelines in reporting and evaluating cases of security violations, the policies for the imposition of sanctions for such cases and the areas from which security violation(s) may arise. The penalties for infractions, classified as grave, less grave and light offenses, are likewise specified in the Order.
